Dr. Ashok Raj Koul
Chief Plastic &
Reconstructive Surgeon

Dr. Prashant Tejawani
Consultant
Orthopaedic Surgeon

Dear Friends,

Greetings from SPARSH Hospitals.

We have great pleasure in inviting you for
"SPARSH Trauma Course - 2013"

We all know even in these days of super specialization most of the Orthopaedic surgeons lives revolves around taking care of trauma patients. Trauma care itself has become highly specialized with so many advancements in fixation techniques, understanding of the biology and precise execution of the plans made. We felt there is a strong need to update ourselves in this area which touches all our lives every day.

We bring you this Trauma Course with the focus on three important aspects.

- Deformity correction
- Limb reconstruction
- Open injuries

To dissect and digest these complex issues we are fortunate to have most eminent faculty from India and Abroad. They have committed their time and are willing to be quizzed and put on the hot seat at answer all our doubts and apprehensions. This course is purely addressed to the practicing Orthopaedic Surgeons from Corporate to Charity Hospitals and Nursing Home practices. The session will be highly interactive with debates on controversial topics. We will also have challenging case discussions and workshops.

We look forward to hosting you at SPARSH in the beautiful city of Bengaluru and promise you some quality time.

Warm Regards

Dr. Sharan S Patil
